

RCB 1101 | Group Project

MoodShaker

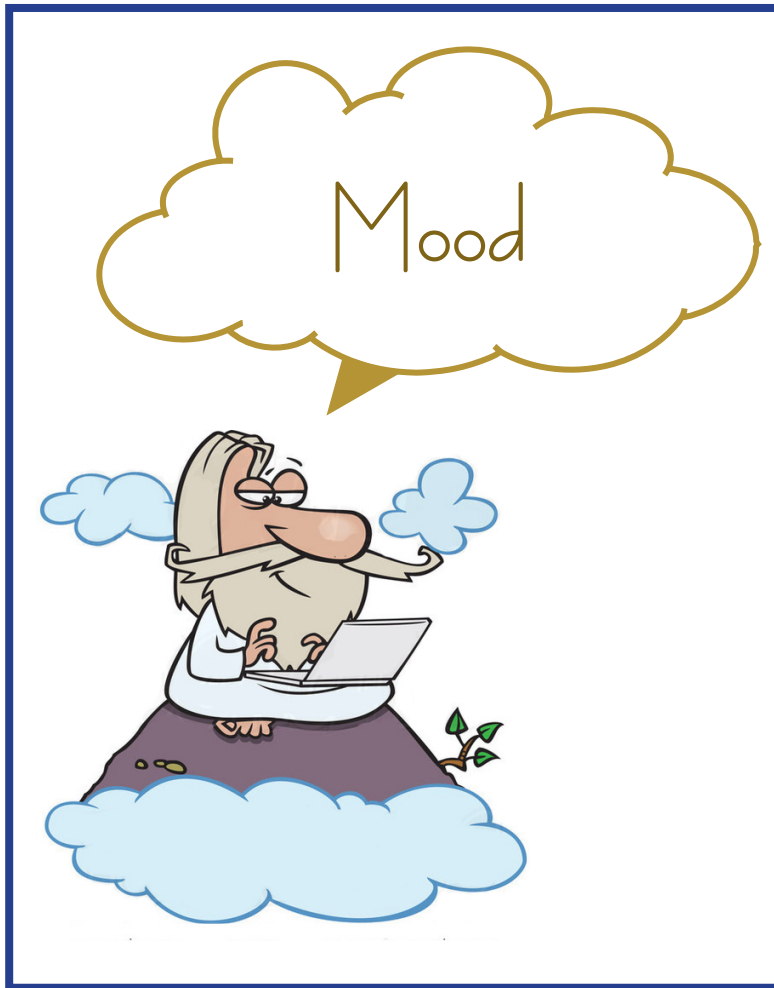

Justin Bellerio | Deepika Vikas | Smriti Shrestha | Ksenia Dalkiewicz

Motivation for Development

Our app will help you to go through this course.

Overall Application Concept

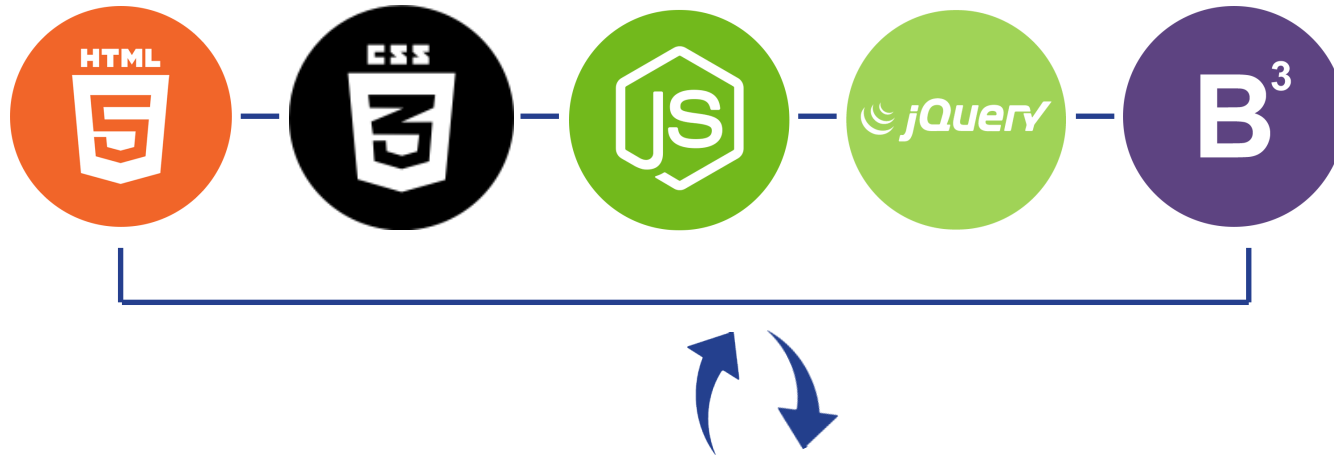

Design Process

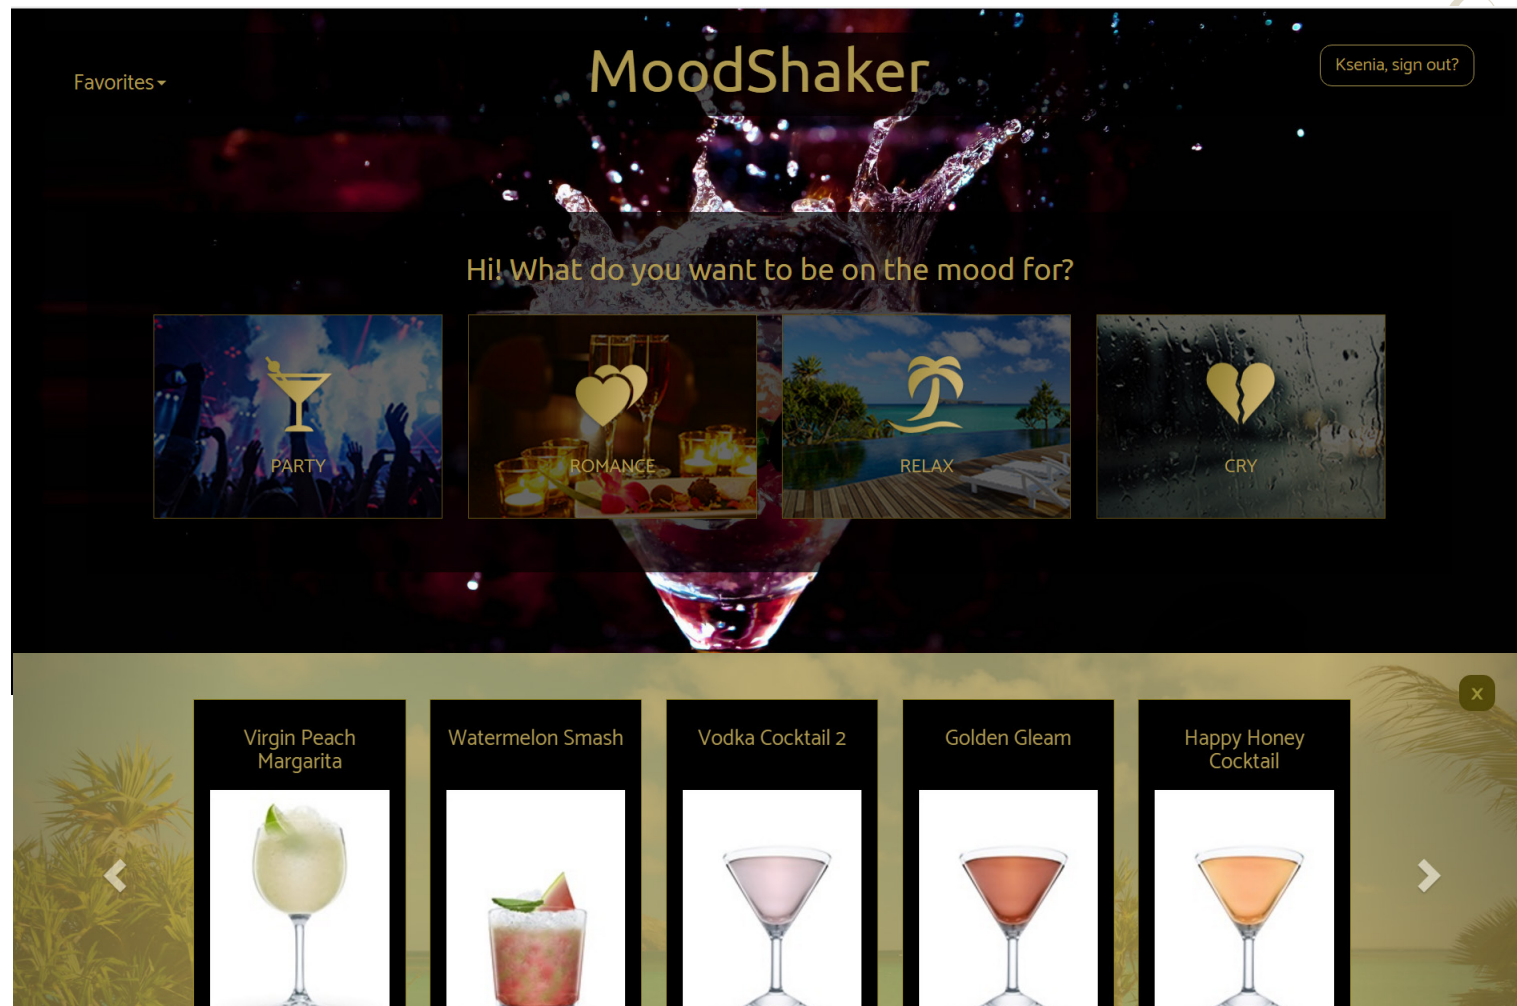

- Pre-planning with pseudo code
- Decision to use functional programming style
- Implementation of Parallax and carousel features to UI design
- Using information directly from API
- Git challenges

Technologies Used

Demo

Future Development

- Age verification
- Google map of liquor stores near
- Why-drink-alone feature
- Alcohol delivering advertising
- Best appetizer to go with drink
